Gift a Tennis Coaching to Underprivileged Kids!

Your donation provides tennis coaching and equipment to underprivileged kids!

In India, the average child spends less than five years playing a sport and quits by the age of 14. Most children continuing after that age are from high-income families. Underprivileged or low-income families are likely forced to quit a sport because of insufficient funds. Not being able to play sports in a group has many consequences on children both physically and mentally. By providing underprivileged children with tennis coaching and equipment they learn to work as a team to reach common goals, which in turn, help children develop communication skills, problem-solving skills, and gives them the opportunity to live a healthier lifestyle.

By providing these kids with the chance to play tennis together, they feel more included and are healthier in many areas of their life.
